MORE DETAILED INFORMATION CAN BE FOUND ON THE [PESTICIDE SAFETY EDUCATION PROGRAM](#) WEBSITE BY [CLICKING HERE](#)

**PRIVATE**

**General Information**

A private applicator license applies to any applicator who uses or supervises the use of any

restricted use pesticide which is restricted to use by a certified applicators and only for purposes of producing any agricultural commodity on property owned by applicator or their employer or under their control or (is applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person.

A private applicator license is valid for no longer than 5 years from the issuing date and all private licenses expire on April 30<sup>th</sup> of the 5<sup>th</sup> year after issuance.

For more detailed information please visit the [Pesticide Safety Education Program](#) Website by [CLICKING HERE](#)

### **Application**

The private application can be obtained by visiting one of the approved testing/training locations listed in the link below or by contacting the Wyoming Department of Agriculture.

[Testing/Training Locations](#)

### **Training/Testing**

To obtain a private pesticide license you must complete one of three options:

1. Complete the Wyoming [Pesticide Applicator Certification Private Applicator Workbook](#) .
2. Attend an authorized training provided by the Wyoming Department of Agriculture or the University of Wyoming Cooperative Extension Services. (Trainer must sign bottom of application)
3. Complete the online/paper examination at one of the testing locations.

The workbook can be downloaded by [CLICKING HERE](#) and must be printed, filled out, and returned with your license application.

### More Information

For more information on a private pesticide applicator license please contact your local Cooperative Extension Office, approved testing location or the Wyoming Department of Agriculture.

- Application
  
- Proof of education (One of the following)
  - Workbook
  - Training
  - Exam
  
- Power of Attorney (Only for applicators that have out of state addresses, available upon request from the Wyoming Department of Agriculture)

## COMMERCIAL

### General Information

A commercial applicator license applies to any applicator (whether or not the applicator is a

private applicator with respect to some uses) who uses or supervises the use of any pesticide which classified for restricted use for any purpose or on any property other than on property owned by applicator or their employer or under their control or (is applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person.

Commercial licenses are only valid for the balance of the year in which the license was obtained plus 24 months and expire on January 31<sup>st</sup>.

For more detailed information along with study materials please visit the [Pesticide Safety Education Program](#)

Website by  
[CLICKING HERE](#)

### **Application**

The commercial pesticide applications are only available at approved testing/training locations listed in the link below:

[Testing/Training Locations](#)

### **Training/Testing**

Pesticide applicators are not required to attend training before testing. However many materials area available online for you to study for the exam. These materials are available on the [Pesticide Safety Education Program](#)

Website by  
[CLICKING HERE](#)

All applicators applying for a new license are required to complete the online general examination along with all supporting exams for each pesticide category. This exam must be completed in one of the approved Testing/Training locations.

### Renewal Applications

Commercial licenses are only valid for the balance of the year in which the license was obtained plus 24 months and expire on January 31<sup>st</sup>.

To re-certify in order to maintain your license from the Wyoming Department of Agriculture, one of the following requirements must be met:

1. 24 hours of pesticide related courses or workshop credits obtained during the time in which the license is valid. These credit hours must be validated with an agenda and proof of attendance. The Department determines what coursework applies toward re-certification.
2. Attendance at the Commercial Applicator Re-certification School held during January in Casper of each year.
3. Re-take the exams for the categories in which you want to be re-certified.

Renewal Applicant training is held in Mid-January. (24 continuing education units are required within the three year span that a license is current.)

### Continuing Education

#### *Frequently Asked Questions:*

1. If you have 24 CEUs and your license does not expire in the coming year, DO NOT

submit for a license renewal. You will lose the time between submitting the license renewal and your current expiration date. The Wyoming Department of Agriculture will not add an additional three years to your current expiration date. Regardless of the situation, a Wyoming Pesticide Applicators license will only be good for three years.

2. If you do not agree with the amount of CEUs that have been awarded to you, we encourage you to dispute it. This can be accomplished by sending proof of attendance (agenda is essential) to the Wyoming Department of Agriculture, Attn: Hank Uhden.

For those entities/companies that are interested in requesting their course be approved for CEU credit in Wyoming please follow this link and fill out the request form for credit. [CLICK HERE](#)

### **RECIPROCAL - Commercial Only**

#### **General Information**

A reciprocal commercial license can be issued to an applicator with a valid license in another state wishing to do business in the State of Wyoming. To receive a reciprocal license from the Wyoming Department of Agriculture, the following requirements must be met:

**Mandatory:** Letter of verification from the respective state department of agriculture FROM THE STATE IN WHICH YOU RESIDE. The letter should state that you are a licensed applicator in good standing with their agency and include the categories in which you are licensed in.

This letter may be faxed to the Wyoming Department of Agriculture at (307) 777-6593 or mailed to:

Wyoming Department of Agriculture  
Attn: Technical Services Division  
2219 Carey Avenue  
Cheyenne, WY 82002

Please be sure we are also supplied with your primary mailing address.

When we have received this letter from your state department of agriculture, we will send you a packet of documents to complete. The packet will contain the following:

1. Wyoming Department of Agriculture Pesticide Applicator Application
2. Power of Attorney Form Note, this form must be notarized
3. Any other forms, notices, or information you may need

When all the forms have been completed, the following should also be returned with the forms:

1. \$25.00 Licensing Fee (Government employees are exempt from the licensing fee)
2. A legible copy (front and back) of your currently held pesticide applicators license from the state in which you reside.
3. A certificate of liability insurance.

To request a letter of good standing be sent to another state please [CLICK HERE](#) .
